- Every policy decision is based upon the wellbeing of our members
- We endeavour to create a feeling of wellbeing over and above the expectation of agents, staff and members

- Agents are most important to continued growth, as are staff and members
- Staff ideas are valued as we continually strive to improve the business formula
- Dare to be different – think and work faster, smarter and with less
- One thing that can be promised is change – it inspires innovation
- Communication engenders trust and loyalty – ring back
- If you become emotional in a decision, pass it on to someone else

TENS AID—for fast relief of pain

For the relief of neck problem, back problems, sciatica, tennis elbow, frozen shoulder, tension headaches, muscle atrophy, carpal tunnel syndrome, R.S.I. (o.o.s).

The machine sends an electronic pulse through the muscle, which stimulates the underlying nerve fibres. The brain registers this, then floods the area via the neuro pathways with endorphin, this is what gives the pain relief.

Basically the machine stimulates an area encouraging the brain into releasing it's own pain relief. (endorphins). We have one on display in the warehouse.
