What is SCQuARE?

The ultimate problem-solving and solution-selling process

SCQuARE is a management tool for thinking through problems, opportunities or initiatives –from analysis through creative solution generation to executable strategy development.

SCQuARE then converts this output into a compelling argument to secure better decisions faster
This system incorporates the four key components of planning and decision-making: analysis, synthesis, creativity and the presentation/delivery, into one cohesive framework.

SCQuARE ensures an organization thinks before it acts!

How we do it?

- ✓ **It achieves this by teaching people how to think strategically and communicate clearly – at the highest level, consistently...**
- ✓ **SCQuARE inculcates a technique that organizes and funnels the thinking process through five stages.**
- ✓ **The stages of the thinking process are designed to Test Logic, Validate Assumptions and Substantiate Arguments for a Well-reasoned presentation.**

Advantages of SCQuARE

- ▶ **Uniquely combines the thinking with the delivery ◀**
 - ▶ **Explains how to identify the problems ◀**
 - ▶ **The only programme that shows how to create a STORY ◀**
 - ▶ **Has a memorable mnemonic ◀**
