## OUR MISSION

Our mission is to facilitate the exchange of goods and services in an environment of fair and equitable trading to create a feeling of well being over and above the member's expectation

## OUR GUIDING PRINCIPLES

- Our prosperity parallels that of our community, locally, nationally and internationally
- Every policy decision is based upon the wellbeing of our members
- We Endeavour to create a feeling of wellbeing over and above the expectation of licensees, staff and members
- We embrace all cultures, we judge none
- Risk making a wrong decision quickly rather than no decision at all
- Licensees are most important to continued growth, as are staff and members
- Staff ideas are valued as we continually strive to improve the business formula
- Dare to be different – think and work faster, smarter and with less
- One thing that can be promised is change – it inspires innovation
- Communication engenders trust and loyalty – ring back
- If you become emotional in a decision, pass it on to someone else

## Australian Medical Centres

### Invest in one of Australia's largest and fastest growing Industries

Today, the health industry is one of the largest and fastest growing in our society, and "Australian Medical Centres" is meeting the demand by developing modern 'state of the art' medical centres, and supplying highly qualified personnel to meet this increasing demand.

After extensive research and development, and with a proven track record in the establishment of independent medical centres, the company was formed via a strategic alliance. Paul Reynolds, a pioneer of Queensland Bulk Billing Medical Centres, together with Matthew Robertson and Garry Biffin, founding partners in Queensland Resort Development Corporation (a "Top 100 Company"), have amalgamated resources to form Australian Medical Centres Pty Ltd. Hon. Nick Dondas AM, a former Deputy Chief Health Minister for the Northern Territory has become Executive Chairman.

With the rapid expansion of the health industry, a number of medical centres are currently being established. Australian Medical Centres is currently participating in the development of a number of medical centres. The board of directors consists of a number of individuals who are experienced in the medical industry, and the company is currently operating on an innovative and efficient basis.

Within the structure of the Australian Medical Centres system, Australian Medical Centres is a company that is registered, officially documented and recorded by the Australian Federal Government. The majority of income is being paid directly by the Australian Federal Government on a regular direct deposit basis. As a result, all medical centres run on a no-risk, nil-cash, no-debt transaction basis with minimised accounting and banking procedures thus reducing costs and increasing profits.

Expanding from its base on the Sunshine coast, once an area of need has been established, the company applies to the Federal Government for approval, then seeks out a suitable location for the centre based on predetermined criteria to achieve the most success. Centres commence initially with 1 to 2 doctors, but it is envisaged that most centres will run up to 4 doctors.

Through a volume network of centres, the introduction of overseas doctors, and the additional levies accompanying approved "areas of need", the centres established by Australian Medical Centres operate on lower overheads and increased levies paid by the Government. In doing so the Centres can easily afford to operate under a total "Bulk Billing" basis. This also ensures a cashless and debt free system, with income secured by the fact that it is guaranteed and paid directly by the Australian Federal Government.

Each centre remains a small business, which is professionally managed externally under agreement, deriving one source of secured income with minimal costs, staffing and liabilities.

### Medical Centre Shareholdings

It is intended that at least an additional 20 centres be established in Queensland and a further 50 or more established around Australia and overseas, 10 centres per region will be established simultaneously.

Available shareholdings are currently 100 shares per centre, with 25 shares available for sale. Shareholders receive a dividend of 4 shares per year and are only required to pay for the purchase of 1 share. Shareholders are required to pay for the purchase of 1 share and are only required to pay for the purchase of 1 share.

Interested purchasers are requested to initially to complete an 'Expression of Interest' form and pay a deposit of \$10,000. The balance of the fees are payable upon settlement. The all up cost of purchasing a 20% share in a centre is \$150,000. This includes an E Banc Trade component of 25%. Finance can be arranged to approved purchasers. Based on current and previous trading figures, once fully established for at least one quarter with 2 doctors, each centre should return a minimum profit of around \$10,000 per month, or \$2,500 per month to each shareholder, equivalent to an annual return rate of around 20%. It is estimated that each centre requires around 90 days to become established and for cash flow to commence.
